We are a dedicated Electrical Utility Distributor centrally located in Colborne, Ontario, Canada. We service customers throughout Ontario, Canada, the United States and the Caribbean. We would appreciate the opportunity to quote on your next requirement. We are suppliers of the following products:

- *Distribution Transformers*

Single-phase and three-phase pole mount and pad mount, oil filled and dry type up to 2500KVA. We can provide new units to your specifications for options and loss values in mild steel and stainless steel. In addition we can supply cost effective and lead-time sensitive remanufactured and reconditioned units. At Lakeport Power we have one of Ontario's largest inventory of new, remanufactured and reconditioned transformers to provide the service level you demand. We stand behind all units with your satisfaction guaranteed and a full one-year warranty. Full in-house repair facility as well as field service capability.

- *Power Transformers*

Lakeport Power supplies station style transformers from 1MVA and larger in primary voltages to 138KV. We can offer a turnkey solution for your station needs as well with new, remanufactured and reconditioned available.

- *Poles, Composite, Wood, Concrete, Steel & Aluminum*

We represent Shakespeare Composite Structures selling, transmission, distribution, communications, street light poles made from fiberglass for strength, light weight and durability. Whether you are looking for a few poles for a small project or a truckload we can help. Lakeport sells treated pine, cedar poles, galvanized steel distribution and transmission, aluminum, decorative steel, concrete poles and fiberglass.

- *PUPI Fiberglass Crossarms*

Lakeport represents Geotek/PUPI fiberglass crossarms available in tangent, dead-end and specialty support styles. Factory drilled to your specifications, stock available with standard "Ontario" drill pattern and our exclusive fiberglass insert to prevent crushing when tightening.

- *Wire and Cable*

Featuring Priority Wire & Cable and other manufacturers we supply Underground and Overhead primary medium voltage and secondary cables, Submarine cable, aerial cable systems, alumoweld, building wire and specialty cables. We can provide cable manufactured to your specifications, custom cut to your length requirements and cables meeting CSA. Priority Wire full reels are supplied on no deposit reels.

- *Switchgear*

Lakeport Power represents Shallbetter padmounted switchgear both in live-front and dead-front designs. Our repair facility can provide repairs and refurbishing to any manufacturers switchgear. We offer careful attention to every detail and provide a fully certified test report and a same as new warranty

- **Arresters**

Distribution, Riser pole, intermediate and station class MOV silicone housed, line protection arresters, underground distribution (elbow surge, parking stand and bushing arresters).

- *Insulators*

Porcelain, polymer, silicone and synthetic insulators, in all configurations, line post, pin type, cap & pin, suspension, dead end, riser support, transmission, guy strain and spool.

- *Switches/Fuses*

ABB Silicone housed Cutouts, in-line disconnects, station disconnects, fuse links, power fuses, current limiting, NX-fusing, single-phase ground operated, three-phase group operated.

- *Switchgear*

We represent Shallbetter padmounted switchgear in live-front and dead-front designs. Our repair facility can provide repairs and refurbishing to any manufacturers switchgear. We offer careful attention to every detail and provide a fully certified test report and a same as new warranty.

- *Street Lighting*

Roadway and area lighting, decorative fixtures, composite, concrete, steel, aluminum, wood poles, aluminum brackets, photo control units, HID lamps, in-pole breakers, pedestal mounted breakers, fuses and fuse holders, replacement ballasts

- *Poleline Hardware*

Complete line of distribution and transmission hardware including grounding, anchoring, clamps, bolts, brackets, guying, fiberglass brackets, rock pole mount units etc.

- *Connectors*

Compression, mechanical, Power Actuated, automatic splices, dead ends, substation, specialty, tooling, heat shrink, cold shrink tubing, etc.

- *Safety/ Tools / Specialty Products*

HASTINGS Hot Line Tools, switch sticks, Grip-all shotgun sticks, SPIKE TOOL, positive cable grounding, fault indicators, HV rubber gloves, blankets, line hose, cover up materials, safety clothing AGO, belts, harnesses, rope, winch lines, portable hydraulic power packs, hydraulic and battery operated hand tools.

- *Support Pads / Below Grade & Above Grade Enclosures*

Fiberglass reinforced transformer support pads for single-phase micro & mini pads, three-phase pads and switchgear. Secondary hand holes, pedestals, street lighting, manufactured by CDR, Structural Composites, Pencil & Nordic Fiberglass.

- *Reclosers / Voltage Regulators*

We sell new and remanufactured oil circuit and electronic single & three-phase Reclosers pole & pad mounted. Lakeport can offer the service of reconditioning your units or ask us about our convenient exchange program. Reclosers need regular maintenance and Lakeport Power can help. We also provide new and reconditioned voltage regulators on time and guaranteed.

- *Enclosures*

Quality manufactured Maysteel/Trinetics enclosures available in single phase and three phase junction assemblies. Manufactured in mild steel, aluminum and stainless steel to standard and custom designs.

- *Holm Industries*

We offer heavy duty schedule 40 PVC cable guard. Available with and without nailing flange, no need for cable guard straps & no more need for grounding a steel or aluminum guard.
